Well Child Check-Ups

Regular Check-Ups!!!

They're a Part of Every Child's Life

- 1. Well-Baby and Well-Child check-ups are important even when your child feels fine
- 2. Early treatment may help to keep health problems from becoming serious
- 3. Immunizations (shots that your child gets at the check-up visits) prevent illnesses that cause:
 - ♥ Pain
 - ▼ Fever
 - ♥ Coughs
 - ♥ Sore Throats
 - Hearing Loss
 - ♥ Blindness
 - ▼ Joint & Muscle Damage
 - ♥ Brain Damage
 - Death
- 4. Check-ups help to identify your child's needs and to make sure your child is getting all of the healthcare that is needed
